1676.

Of the Eclipses this Year 1676.

THere will be two Eclipses of the Sun this year: But not any of the Moon.

The first of the Sun will be upon the first day of *June*, five minutes past 10 a clock in the morning.

The second Eclipse of the Sun will be on the 25 day of *November*, 20 minutes past 8 a clock in the morning: And both visible in *England*.

A Description of the Four Quarters of the Year.

The Spring Quarter

Begins when the Sun enters in the first point of *Aries*, which will be the 10 day of *March*, 10 min. past 12 morning.

The Summer-Quarter

Begins at the time when the Sun enters in the first point of *Cancer*, which will be upon the 11 day of *June*, 42 minutes past in the morning.

The Autumnal-Quarter

Begins at the time when the Sun enters into the first point of *Libra*, which will be upon the 12 day of *September*, five min. past 4 in the morning.

The Winter-Quarter

Begins at the time when the Sun enters into the first point of *Capricorn*, which will be upon the 11 day of *December*, 5 minutes past 4 afternoon.

Rules concerning Husbandry.

When you would plant or graft, consider where the Wind bloweth; if it be in the South, it is very good for that purpose; but if it be North or East, it is not good.

It is good to plant or graft generally the Moon encreasing in these Signs, ♋ or ♊, in the beginning of the Spring, or latter end of Harvest.

FLY. 1676.

Plant Trees for coninuaunce, when the ☽ is in ☿, ♄, ☿.

Cut Timber to have it found in *December* or *January*, in the wane of the Moon in ☿ or ♄.

Prune trees and pull off the moss in the month of *February*.

Plash hedges, and lop trees for fewel, that the heads may the sooner grow again, when the ☽ is ♀ or ♀, in her increase.

Set young Quicksets from *September* to *March*.

Remove young trees in the last quarter of the Moon, when she is in ♀, ♀, ♄, and in *September*, *November*, *February*.

Set Vines in *February*, *March*, or *September*, especially the Moon in ♀, ♀, ♄, in her increase.

Set Rose-trees in the midst of *February*, the ☽ increasing.

Cut or prune trees in *March* or *April*, the ☽ in ☿, ♄, ♀.

Gather Fruit, as Apples, Pears, and the like, at the full of the Moon in the afternoon, the weather being fair and dry.

Cut down Hay presently after the Full of the Moon.

Dung ground for to prevent growing of weeds, the Moon decreasing.

Sow Carrot-seeds about the end of *February*, or the beginning of *March*, the Moon increasing. Also sow Onions and Leeks in *February* or *March*. at the wane of the Moon.

Sow Cucumbers and Mellions in *February*, or *March*, or *June*, in a hot and fair day.

Sow Parsley, Fennel, Anniseed, in *February* or *March*, at the full of the Moon.

Sow Margerum, Violets, Thyme, Rosemary, and Lavender, in *February*, *March*, or *April*, the Moon increasing.

Sow Gilliflowers and Wall-flowers in *March* or *April*, in the old of the Moon.

Sow Hysop and Savoury in *March*, when the Moon is old.

Sow double Marigolds in *February* or *March*, in the increase of the Moon.

Shear Sheep at the increase of the Moon.

It is the best time to geld Cattel, the Moon being in *Aries*, *Sagittarius*, or *Capricorn*.

Of Blood-letting, and other Physical OBSERVATIONS.

IN Youth let Blood from the Change to the first Quarter.

In middle Age, from the first Quarter to the Full. In Elder Years from the Full, to the Last Quarter. In old age, from the last Quarter to the Change. But know that under the age of Fourteen, and above the age of Fifty six, it is not good to bleed at all.

Again. In the *Canicular* or *Dogdays*, it is very hurtful to take any Physick at all, unless there be great need; and indeed Necessity hath no Law: Wherefore in such a case, the Disease being desperate, the Cure must be adventured.

Take a Purgation when the Moon is in Trine or Sextile Aspect with *Venus*, decreasing in any of these three Signs, *Cancer*, *Scorpio*, or *Pisces*, and it will be sure to work the better, because when a moist Planet in a moist Sign hath such an Aspect, the humours in the Body are then stirred up and down, and so the better purged out: Wherefore in this case it cannot be amiss to prepare Humours by something that is laxative: And let this be done, whilst the Moon is either in *Gemini*, *Libra*, or *Aquarius*.

Take a Vomitive that it may work thoroughly when the Moon is in *Aries*, *Taurus*, or *Capricorn*: And know that the Aspects of the Moon with *Saturn* or *Mars*, or the Moon in *Leo*, ought to be always eschewed in the taking of Medicines.

Finally, If Necessary urge no haste, these Observations are expedient: for it is a plain truth, that the change of weather upon differing Aspects, doth greatly change and alter mens Bodies.

FOrasmuch as there is a daily Complaint amongst Physicians and Others, of the Adulteration and Sophistication of Chymical Medicines, and the difficulty of obtaining those that are True and Genuine, partly occasioned by many spurious and illegitimate Preparations brought to us from beyond the Seas, and partly by the Avarice of some of our own Chymical Operators: This is therefore to give notice to all Persons that have occasion for Chymical Preparations (whether in the City of London or in the Country) that they may be supplied with those that are truly made, and able to abide the most curious Examens of the Judicious, by Christopher Pack Chymical Physician, at his House at the Sign of the Globe and Chymical Furnaces in the Postern near Moregate in London.
